DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/15/2006 has been entered.
2. Claims 1-7 and 21-28 are pending, and independent claims 1 and 21 have been amended, and new claims 22-28 have been added.

Allowable Subject Matter

3. Claims 1-7 and 21-28 are allowed.
4. The following is an examiner's statement of reasons for allowance: With regard to independent claims 1 and 21, primary reason for allowance is inclusion of the limitation "a plurality of mounting fingers extending outwardly from the trim bezel" in claims 1 and 21. Further, prior art of record does not teach the step of "providing a trim bezel having a single common mounting location adapted to accept either one of the first modular light assembly and the second modular light assembly". With regard to new independent claim 22, prior art of record fails to disclose the step of "providing a trim bezel having a single common mounting location adapted to accept either one of the first modular light assembly and the second modular light assembly". Further, prior art of record does not disclose the step of installing the trim bezel and one of the first modular light assembly and the second modular light assembly in a vehicle.

Art Unit: 2875

Claims 2-7 and 23-28 depend from claims 1 and 22. Therefore, claims 1-7 and 21-28 are patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
